How does a provider service get onboarded and listed on the EOSC marketplace? / webinar

Typ wydarzenia: Spotkanie

A webinar about Onboarding service onto the EOSC Portal, exploring the question “How does a provider service get onboarded and listed on the EOSC marketplace?”. The EOSC-Enhance project works to develop and improve the functionality of the EOSC Portal, further augmenting the catalogue of services assembled to date, and connecting independent, thematic data clouds for the benefit of users and service providers across Europe.

Presenters:

Joshua Tetteh Ocansey (CESSDA),
Carsten Thiel (CESSDA)

The webinar will provide assistance for service providers to share services via EOSC with the EOSC Portal as well as being introduced to some of the benefits of the EOSC portal. The objectives of the training event are: Explain minimum criteria for becoming a provider and requirement to onboard services into the EOSC portal
Describe in detail the EOSC onboarding process
Gather requirements from the TRIPLE project in order to take them into account for the next iteration of the Portal development.
