Data wydarzenia: 25.08.2017 - 27.08.2017

Gesture and Speech in Interaction / The 5th GESPIN Conference

Typ wydarzenia: Konferencja

Miejscowość: Poznań

Organizatorzy: Uniwersytet im. Adama Mickiewicza

Scope and contributions

The scope of the conference includes but is not limited to the following topics:

- Multimodal models of cognition and utterance production and perception in face-to-face communication
- Semiosis in multimodal utterances
- Speech and gesture: grammars and lexicons
- Coordination and timing relationship between gesture and speech
- Relationship between and integration of speech prosody and gesture
- Cross-modal analysis of multimodal utterances
- Multimodal and multilingual corpora
- Tools and schemes for gesture annotation and analysis
- Speech and gesture modelling and generation
- Gesture recognition in humans and machines
- Gesture and speech in conversation
- Speech and gesture production and perception: behavioural and neuroscientific studies
- Multimodal language learning and teaching
- Gesture and speech in child development

Contributors are invited to submit full papers (6 pages maximum) written in English. Papers will be sent to two reviewers and final selection will be discussed collectively by the local organising committee. Proceedings will be published as a special issue of Journal of Multimodal Communication Studies and will be available at the Conference. After the Conference, extended versions of selected papers will be published in a highly ranked linguistic journal. We also invite contributors to propose workshops or special sessions. (Details should be discussed with the Organising Committee.)

Biuletyn Polonistyczny

Papers should be submitted in PDF format. The formatting details have been specified in the GESPIN 2017 Author's package. The package includes templates in Open/Libre Office .ODT, Microsoft .DOC, and Adobe PDF formats. Only original papers, not submitted/published elsewhere are invited.

Download GESPIN 2017 Author's package.

Paper submission is supported by EasyChair.
